

Time Synchronization Solutions

- Fully redundant Master Clocks at Main Station and Station D
- Sub-Master clock at all Stations from Main Station to synchronize display clocks.
- 4xRegenerating SSU to filter accumulated wander in the synchronization chain.

Supports Up to
1000 Time Display Units
at each location.

■ VCL-2145 - Grandmaster PTP IEEE-1588v2 Primary Reference Clock

■ VCL-2145-LC - Primary Reference Clock

■ VCL-2103 - Sub Master Clock

■ 20:59 VCL-2106 - Time Display Unit
